

Soumadip Basu

QA Automation Engineer · AI-Driven Quality Engineer · Playwright & Agentic AI Testing Specialist

Bengaluru, India 560087 · +91 98518 24880 · soumadipbasu333@gmail.com

PROFESSIONAL SUMMARY

Results-driven QA Automation Engineer and Quality Engineering professional with 6+ years of experience across manual testing, automation testing, web testing, and mobile testing in Agile, enterprise-scale environments. Specialized in AI-driven quality engineering — integrating Agentic AI, Generative AI, and Model Context Protocol (MCP) servers into modern testing workflows to accelerate delivery and elevate product reliability. Skilled in designing scalable automation frameworks with Playwright, Selenium, Appium, and WebDriverIO, and in building AI-assisted test automation using Playwright MCP, custom AI testing agents, and LLM integration. Adept at test framework development, test optimization, intelligent test orchestration, and cross-functional Agile delivery, with proven success in AEM (Adobe Experience Manager) testing at Deloitte.

CORE COMPETENCIES

- | | | |
|----------------------------------|------------------------------|--------------------------------|
| ▪ QA Automation Engineering | ▪ AI-Powered Test Automation | ▪ Test Framework Development |
| ▪ Playwright & Playwright MCP | ▪ MCP Server Integration | ▪ Self-Healing Test Automation |
| ▪ Intelligent Test Orchestration | ▪ API & Web Service Testing | ▪ Mobile Application Testing |
| ▪ Quality Engineering | ▪ Test Planning & Strategy | ▪ STLC & Defect Management |
| ▪ AEM Quality Assurance | | |

TECHNICAL SKILLS

AI & Agentic Testing	Agentic AI · AI-Powered Testing · Generative AI in Software Testing · AI Test Automation · AI-Assisted Test Script Generation · Custom AI Testing Agents · MCP (Model Context Protocol) integration · Playwright MCP · Basic Prompt Engineering
Test Automation	Playwright · Appium · WebDriverIO · Robot Framework · Cucumber BDD · Katalon Studio
Programming	JavaScript · TypeScript · Python
AI Platforms	GitHub Copilot CLI · Claude Code · Ollama · Open AI Codex
Testing Types	Functional Testing · Regression Testing · Smoke & Sanity Testing · Web Application Testing · API Testing · Mobile Application Testing · Test Planning · Defect Management ·
Tools & Practices	Postman · Git · Adobe Experience Manager (EDS) · Jira · Android Studio

PROFESSIONAL EXPERIENCE

Deloitte — Software Engineer II (Ex-Consultant & Analyst)

Oct 2021 – Present

Bengaluru, India · Quality Engineering & AI-Driven Test Automation

- Lead end-to-end QA across enterprise Adobe Experience Manager (EDS) web platforms, owning test strategy, planning, execution, and reporting to consistently deliver high-quality, high-performance releases.
- Integrated Custom AI agents for automation script generation with custom skill set into the testing process, increasing automation coverage, accelerating defect detection, and improving overall product reliability.
- Architected and maintained scalable automation frameworks using Appium, WebDriverIO, JavaScript and Cucumber for cross-browser web and mobile applications.
- Pioneered AI-assisted test automation with Playwright and Playwright MCP, enabling AI-driven test script generation and intelligent test orchestration that reduced manual scripting effort.
- Tested 10+ different life science & healthcare applications in Mobile and Web platform.

Alethea Communication Technologies Pvt. Ltd. — QA Automation Engineer

Oct 2020 – Oct 2021

Bengaluru, India · Cloud Application Test Automation

- Designed and built a robust automation framework using Robot Framework and Python for a cloud-based ATF web application, expanding automated regression coverage.
- Significantly reduced overall test execution time by developing a JavaScript and Katalon Studio automation framework, improving testing efficiency and release velocity.
- Collaborated closely with the DevOps team to coordinate and execute CI/CD test cycles, delivering detailed logs and reports that accelerated debugging and issue resolution.

Sonim Technologies — QA Engineer

Feb 2019 – Apr 2020

Bengaluru, India · Mobile Application Quality Assurance

- Partnered with development and testing teams to create detailed test plans and comprehensive test cases for rugged mobile applications.
- Executed functional, smoke, and regression testing across sprint and release builds, logging and managing defects with clear reproduction logs to enable efficient resolution.
- Operated within an Agile environment, applying QA best practices and release validation to ensure timely delivery of high-quality mobile applications.

PROJECTS & AI INNOVATION EXPERIENCE

- **Playwright MCP AI Testing Framework** — Developed an AI-assisted automation framework integrating Playwright with Playwright MCP and LLM-backed agents to auto-generate, self-heal, and orchestrate end-to-end test suites for AEM web applications.
- **Generative AI for Test Case Design** — Applied prompt engineering and Generative AI in Claude Code, Jira Atlassian RoVo and create custom agents to accelerate manual test case generation, test data creation, and defect analysis within Agile delivery cycles.

CERTIFICATIONS

Claude 101 & Claude Code in Action

Anthropic · Issued Mar 2026

Playwright 101 Certification

TestMu AI · Issued Mar 2026 · Valid until Mar 2028

Robot Framework with Python — Selenium & API Automation Testing

Udemy · Issued May 2024

Generative AI in Software Testing

Udemy

WebDriverIO (Selenium JavaScript) Automation — Basics to Framework
